In view of the above, Forms FD-122 and FD-397 are being submitted reflecting the above status of subject's employment.

SUGGESTION OF A COUNTER-INTELLIGENCE NATURE

It is noted that subject's Local Draft Board advised on 6/13/68, that subject was then classified 2S. Inasmuch as subject is not a student at CU or NYU, it is felt that if an appropriate source is contacted at Selective Service System (SSS) Headquarters in New Jersey, and advised the subject is no longer attending school and asked "Why the subject is not in military service?", appropriate action would be taken to reclassify the subject in 1A.

Newark Division is requested to (1) recontact Local Board 37, SSS, Paterson, New Jersey, to determine subject's draft classification, and (2) if he continues to be classified 2S, to conduct the counter-intelligence suggestion set forth above.

A Clown is A Clown is A Clown is A Clown

Dear hearts, we have in our midst the greatest - absolutely the biggest fruitcake of them all. He's been described as the best standup comedian in the country, -an appellation well deserved. We speak, of course, of that loveable, self-proclaimed idiot Abbie Hoffman.

Everywhere that Abbie goes the pigs are sure to follow. He's that darling of the "New York Times", of TV, of the FBI. What more could a real nut want? He's the idol of the nut fringe of the movement. He's the king of the kids. Someday, when his final fuse blows out, he'll be the king of Creedmore. Abbie is pulling off the biggest put-on of all. Sit back and enjoy him. Everytime he appears on TV, he takes another chunk out of the peace movement. With pals like dear, old Abbie, who needs friends in the establishment?

Speaking of the establishment, it would appear that Abbie has them by the balls too. We see by the papers that Abbie gobbled the establishment bread during the summer of 1968. He worked as a "consultant" (of all things) in the Youth Service Agency of the Human Resources Administration. Get this....He rocked those middle class, plastic taxpayers to the tune of \$40.00 per day for 21 days. Pow! Bam! Bang! That's enough to keep an acid-head happy for a year.

Well, I suppose one can't bad mouth Abbie's chewing on the public tit. After all, it's bread that counts, not where it came from. Some of us do believe in the student-worker revolutionary efforts. It seems a bit of a shame when the squares identify the movement through the actions of a clown. Along side of Abbie, Dave Dellinger is a no-show.

The trouble with Abbie and his former pal Jerry Rubin, is that the serious workers for peace have nothing, absolutely nothing in common with them. Their jokes, public and private, have cost the movement so much ground as to be unbelievable. Their pranks have done more to alienate the support from the liberals than any other actions taken during the past several years. Is it worth it? We remember when Abbie threatened to go to Prague and stand in front of a Russian tank. I think he said he intended to pee on it. Too bad he didn't go. The picture of Abbie being run over by a T-55 would rank with the funniest scenes of all times.

Do your thing, Abbie. Entertain the world. In the meantime, we in PL and SDS will try and do our thing. We ask one thing, pal. Give us a chance.

regard. Also, while it is not expected that routine day-to-day personal activities of these Key Activists will be followed, it is expected that pertinent information be promptly developed in respect to any statements made by them denouncing the U.S. and calling for civil disobedience and other forms of violent, unlawful and disruptive acts where prosecutive interests on the part of the Federal Government or local government may exist.

The Bureau also has instructed that it expects that through informant coverage or other means that any act on the part of a Key Activist in furtherance of the aims, purposes and objectives of the New Left movement will be fully explored and followed. Continued consideration is to be given by each office as to means to effectively curtail the activity of each Key Activist, residing in its area and thereby neutralize his usefulness to the New Left Movement.

The Bureau has requested that two photographs of each Key Activist be forwarded the Bureau and this practice continued whenever an individual is designated a Key Activist.

A copy of this memorandum is being directed to each Key Activist file. The case agent should immediately forward two copies of the photograph of the Key Activist to the Bureau in the individual case caption, if not already done. The reBulet and instant caption may be used as the reference.

The New York Newsreel has about 50 members. The group was formed by a corporation, which also has a partnership called the "Blue Van". Most of the longer films and the films that are expensive or that promise to make money are produced by the "Blue Van". These films will be similar to the Newsreel films but will be more dramatic rather than documentary.

The New York Newsreel is currently producing
a film on the Chicago convention demonstrations but because
of a lack of footage of the events in Chicago, the film
may be a failure. The group will, however, distribute a
Yippie film on the Chicago event, which through the use of
humor gains support for further Yippie activity.

NOTES FROM NOWHERE TO OTHER N-R REEL GROUPS

City Wide Communications Group:

After Madison we've tried to start pulling together a city-wide communications group. In our case this meant beginning regular meetings with LNS, Guardian, Radio Free People, Ikon, RAT (in principle, they haven't showed yet for any meetings), and the various high school papers. This was seen as a base group: we'd expand later as we were more together.

First meeting was mostly bullshit, feeling eachother out, some of the dirty laundry from Madison, other odds and ends. We decided that the best way to start was not to talk abstractly about what a "communications group" or syndicate or front shld do in the city, how it would function, etc. That's too vague, and nobody has any very clear ideas about it. Rather: we should try to talk first about a given "issue", as analytically as possible, and then move into the specifics about how we had related to it, how we should have related to it, what communications groups might do, and what all of us functioning together might have meant. So, second meeting was about the community control of schools as a central issue in this area, closely related to lots of other matters about hospitals, cops, etc. The discussion was very rough: lots of different positions, each group having its own slant and its own priorities. Nothing much came out of it. BUT, to most of us, the important thing is to hold together this city-wide communications stuff, keep trying to work it through, and develop the models that would indicate how such a coming together will be valuable and important. Everybody has the clear sense that our media can develop real power; everybody has the sense that our coming together (in more than just "mutual cooperation") enhances the possibility of developing that power. Nobody is clear about the forms this could or should take.

We'll keep meeting once a week for as long as people can hold out. In the meantime, considerable sharpening of ideas about what we could be doing. It seems like an important start. And, if nothing else, represents the first attempt among the different groups to talk together, work together, pool energies.

Films in Progress:

2 on Ocean-Hill Brownsville (school stuff; one long and one short; short one should be ready fairly soon; Chicago (being re-worked once again); Catonsville (about the trials in Baltimore for the people who destroyed the draft-records); self-defense (beginning of a series about the need for different kinds of defense/offense tactics); soldiers (long-ish film about different kinds of work with soldiers, organizing, etc.); summer '69 (feature about a number of different kinds of activity--draft-organizing, coffee shops, media stuff, Chicago, that carried through the summer and climaxed with Chicago); High School (feature about the high school student union and high school organizing). Plus perhaps a few others. Also, we've gotten some more Cuban films, and a couple of French films (from ARC, a fraternal group of young film-makers who we regard as the equivalent of Newsreel in many ways in France) which are good and will be distributed with an english track.

Internal:

Think much of our energy since Madison has gone to internal matters. New York N-R is very large (40 plus) and continually getting larger. The office (rental and all) is a massive operation. Also: general failures to develop community distribution sufficiently and to go out to enough screenings in our area; failure to set up good and extensive film-workshop-classes. Failures go on and on. Basically, our inability to mobilize all the potential energy of all our people to do all the things that have to be done. We've set up "work-groups" that will supervise each important area, figure out what has to be done and how to tap the total energy to get it done. Also worrying about more effective ways of integrating new people fast. If any of our attempts work out, the specifics may be of interest to other N-R groups. Internal organization is very important because in one sense we're a business, with all the disasters that implies. Unless we deal with that

directly, understand it, use it, rationalize and control it, we're gonna be swamped in about 6 months. For some of us, one of the important aspects of N-R is that it can actually tap resources out of the established society very successfully. (There are perhaps two other collectivities that can do this in the movement.) We have to find ways to develop this capacity without in any way letting it effect our development and direction, which has nothing at all to do with this capacity. (Perhaps these problems are unique to new york right now, but in the long run, they're common to all of us).

The New York Newsreel holds regular weekly meetings at 127 East 15th Street, 673-8270. The meetings are held on Tuesday evenings, starting at about six o'clock. The meetings usually run until about midnight. A weekly meeting is usually the only gathering at which all Newsreel personnel are present.

There are usually several new members or visitors present at the meeting. It would be relatively easy for an Agent to infiltrate the New York Newsreel by attending one or two of the Tuesday night meetings. Only occasionally is a person asked how he heard of the group or where he obtained the address and meeting time. At least one or two new people a week attend the meetings by themselves. When asked who they are and where they are from, they usually say that they saw several Newsreel films at a "showing" and talked with a couple of Newsreel members (they never can remember who they talked with). The Newsreel members are always asking new people to join the group.

There are three major requirements for belonging to the Newsreel, or at least to be trusted by the Newsreel:

- 1) A radical or "revolutionary" outlook on life, a dislike for all government systems, especially those that did not come about by a recent revolution.
- 2) Some knowledge or experience in photography preferably motion picture photography.
- 3) An outlandish appearance (long hair, beard, dirty clothes, vulgar language, etc.).

These requirements are generally true for other Newsreel groups outside of New York. The groups in Cleveland, Boston and Madison (which are still very small) generally have a student membership and are connected to the SDS in these cities. The San Francisco and Chicago Newsreels have few students but have more "hippie" types. The New York Newsreel seems to be the only Newsreel group with a few older members, and the age range is about from 20 to about 35.

b6
b7C
b7D

San Francisco, California
December 19, 1968

Two other requirements are:

- 1) Some past experience in peace marches, demonstrations, or protest marches.
- 2) The use of drugs (marijuana is universally used by Newsreel members in all cities. Those very few who don't smoke marijuana usually have had a bad personal experience with the drug but don't mind other persons using it).

Although the New York Newsreel has members who do not have long hair or beards, a new member who is "clean" in this manner is usually thought to be an undercover policeman or Federal Agent. The group in general seems to fear infiltration by the CIA more than any other group. Anytime someone is under suspicion, he is thought to be a CIA Agent.

The groups, New York especially, are very open to new members and openly disclose information about "secret" activity of Newsreel groups and other activist groups. Usually the information that is kept within a smaller group in Newsreel is not disclosed because of the fear of law enforcement agencies obtaining the information, but is kept secret because members of the group like to pretend to be "spies". Inside information about the personal activities of people like JERRY RUBIN and ABBY HOFFMAN or others might be kept secret at an open Newsreel but may be disclosed at a marijuana party the same night.

Along with producing films on labor demonstrations, the New York Newsreel members will be active in arranging demonstrations. RUBIN, HOFFMAN, as well as [redacted] and others are in close touch with New York and other Newsreel groups. The New York Newsreel membership is in close touch with the New York group called Up Against the Wall (this group operates a "secret" printing press along with the New York Newsreel at 167 B Suffolk Street in New York City).

With the new system of distribution the group will be renting films to colleges and activist groups. If a film is needed for review and cannot be obtained by an Agent or informer, one might simply rent the film through some person or front group. The Newsreels rarely question rental requests from university professors or students belonging to the SDS or other university activist groups. At this time the New York Office is more prepared to fill rental orders. The film files are open to anyone in Newsreel and the films may be taken out by members of Newsreel. The method of keeping track of who has taken out a film is not organized and films are constantly disappearing. They are usually sold for profit by Newsreel members without the Newsreel's knowledge.

SUBJECT: COINTELPRO - NEW LEFT

Enclosed for the Bureau are two copies and for New York and Chicago, one copy each, of San Francisco airtel dated 1/7/69 captioned "THE NEWSREEL, IS - MISCELLANEOUS" and "STUDENTS FOR A DEMOCRATIC SOCIETY (SDS), IS - SDS". Also similarly enclosed are two and one copy respectively of San Francisco LHM dated 1/7/69 captioned "NATIONAL UNDERGROUND MEDIA CONFERENCE, MADISON, WISCONSIN, 11/28/68 - 12/1/68". Appropriate dissemination of this airtel and LHM has been made previously. (U)

These enclosures are furnished the Bureau, New York and Chicago for convenience in considering the following suggestions under the above caption.

The Bureau is now engaged in combating the revolutionary activities of the New Left, anarchists and the like who are constantly attacking the status quo, the Establishment, or whatever name is given to the organized, lawful society which the Bureau represents. As of now, the Bureau and the law enforcement agencies of this country have been bearing the brunt of this New Left attack.

The welfare and stability of the United States demands that the Government, law enforcement, and society as a whole be more widely supported by other units of "The Establishment". As of now "The Establishment" has not begun to use the weapons at its disposal to fight the threat of the revolutionaries. The courts continue to mete out apologetic sentences instead of punishment which would remove New Left violators from their activities for material lengths of time.

These statements of strategy by [] are the type of information which should be convincing to persons who are not Marxist oriented but, nevertheless, continue to regard current demands of the blacks and the New Left as sincere, rather than as demands which are purposely made because they cannot be met.

b6
b7C

Mention might be made here of the fact that the [] who are described by the Bureau in the "Current Intelligence Analysis" as professional revolutionists, are permitted to enter the United States and spread their venom throughout this country on a two-month tour. It would seem that pressure could be brought upon the State Department to keep these people out of the country. We have enough trouble-makers of our own without importing any. The United States Government should have the power and inclination to prohibit people such as the [] from entering the United States. A Congressional or Senate committee could or should make inquiries of the State Department and ascertain just what their reasoning was in permitting such people as the [] to enter the United States. Another example in this connection would be [] Keeping out undesirable aliens should not be a complicated matter and it would be a highly-regarded accomplishment for the Bureau under this program to somehow stop or at least limit the importation of these undesirable aliens who are against everything the good people of the United States stand for.

b6
b7C

To further complicate the problem confronting us, there are frequent incidents in which businesses that are now freely flourishing under capitalism actually are funding groups that are seeking to overthrow the capitalistic society.

One such incident is indicated on page one of the enclosed LHM which discloses that the National Underground Media Conference voted to allow [] of "Life" magazine, to attend the Conference in order to encourage him to become a radical and a revolutionary, noting that he had written a recent article on SDS for "Life". (See "Confrontation and Disruption" by [] "Life", []) It is noted that [] of the Denver Office and [] have each reported that CARL PRESTON OGLESBY, JR., Key Activist and former President of SDS who was prominently featured in [] article in "Life", is currently in Cuba and working under an arrangement to write for "Life" and receive \$1500. OGLESBY expects to use this sum to defray his expenses and those of other SDS members also traveling to Cuba to attend the Tenth Anniversary of the Cuban Revolution.

Columbia Records is owned by CBS. It owns the Yankees and God knows what else. Its offices are at 51 West 52 Street in New York in a new skyscraper whose walls are already peeling and cracking.

Right now it is the home of the revolution.

Or almost. It is certainly spending more money promoting the Youth Revolution than one would think possible for a standard American corporate enterprise.

Columbia ads divide the world into "we" and "they," with the "we" including the longhairs, the youth and Columbia and the "they" including anyone you want to include because you happen to be against him or he against you.

The most recent of the Columbia ads, running in full page spread in college papers and underground papers all over the country, is the one which shows seven guys in a bare room with bars at one end. They are sitting on a bench. Standing around. One is crouched on the floor rolling what I, in a charitable moment, not wishing to infer that Columbia Records Inc. is advocating an illegal act, assume to be a standard cowboy cigaret with Bull Durham and white Zig Zag papers. You think it's something else? Smile, when you say that, Padnuh.

Some of the guys are listening to a phonograph via earphones and the caption on the layout is: BUT THE MAN CAN'T BUST OUR MUSIC.

Well, padnuh, I don't know, I just don't know. The name of the game, seen from one point of view, is steal the rhetoric of the revolution like the poverty program stole the organizers. It is hard to think of revolution being advocated from the architectural prize of 51 West 52 Street, from the record company which withdrew Bob Dylan's John Birch lines. But the times they are a-changin' and this may be part of the change.

On the other hand, I am inclined to think only that there's money in revolution and Columbia is smart. "The only legal trip you can take," it says under the picture of a Terry Riley cover. They gotta be kidding. But no, maybe they aren't kidding, only smart.

Is there that much to be made from revolution? Marx sells in paperback like the Daily Worker never did. Marcuse sells in paperback in quantities sufficient to frighten those fearful of the power of the young.

No, the more I think of it the more I am convinced that it is only that Columbia is smart and smells money. And it only proves what we know already about America, even if we sometimes find it hard to spell out in words.

In this society, if you can make enough money

out of it you can go a long way towards

making it legal. If American Tobacco had decided to market pot in the mid-thirties and saw how it would sell from a sampling, it would never have been made illegal. And the day they do decide to market it, the day they do decide the possibilities of profit make it worth while enough, the wheels will start turning to make it legal again. Remember J. Edgar Hoover said that the primary thing was lawnmower; justice was incidental.

Lawnmower means good business and justice sometimes does not. When it becomes good business, it will become legal. Lenny Bruce's bit about the lawyers who smoke grass becoming judges will help and so will a number of senators' sons busted. But basically it will be economic.

Back to Columbia and its rock revolution rhetoric. I am mistrustful. I doubt. This is CBS. This is the Yankees and long hair and sideburns are OUT for professional ballplayers, the sports pages say. But then again it was Columbia who let Bob Dylan define in song the implications of that advertisement: the bars, the music, the long hair, the rolling of the joint in the joint and the endless sense of waiting. Didn't Dylan sing of the Chimes of Freedom tolling "for the lonesome-hearted lovers with too personal a tale and for each unharmed gentle soul misplaced inside a jail...."

I like that, it makes me think that Columbia, out there on the tube and in the big tall building is worried about us all and on our side. It's nice to have a big corporation on your side with its ad agency and its budget. Gives you a sense of power.

But I really wonder. If the revolution means what it says it means, it's aimed at the protection of the artist from the exploitation of the machine and the corporation; it is aimed at the personalization of life and against the machine; it is aimed at making human values more important than property values and human rights more important than property rights. And I think

it is also aimed at Walter Cronkite and the news.

I have trouble, when I think of this, thinking further that the Columbia accounting department grasps that the advertisement they are putting through that voucher for, is designed to help put them out of business.

For that's where it all goes eventually. The long hair, the grass, the music, the new attitudes. It goes towards completely taking apart the system that now exists and which is founded on the money and profit mythology and replacing it with something else which is not clearly defined as yet but which is evolving, slowly perhaps but evolving none the less, from those very things the Columbia advertising budget is advocating. I suspect they are calling in Whirling Karl about now.

We mustn't overlook the fact that Lenin was brought back into Russia in a sealed car deliberately and look what happened. Only the other night in a discussion of where this all is headed, it struck me that the Movement in the intellectual centers, where the civil rights and New Politics thing evolved into the Yippee and Hippy and Commune ethic has a great deal of Jenny Bruce and Bob Dylan both in it, for all of Martin Luther King.

"The man can't bust our music." O.K. That's great and I'll go along with it and even hail it. Thank whoever you thank these days that there is money in revolution and that there continues to be. Hopefully there will continue to be and if there is enough it can be used to bring down the very system which produced it in the first place.

Trojan horse? Man, Trojan horses went out with the rest of the Trojan products and horse

is habit forming. What is going on is the inevitable cannibalism practiced by civilizations in the early but accelerating stages of decay.

We are screeching down hill baby, like a runaway truck on a downhill grade. Out of control. It could be that something can be done about it.

I wouldn't know what. Abolish the school system the education conference at U.C. Berkeley

said, in essence, late last month. Well, that's not bad for a starter. Make music that is a real revolution. That's a good one too. And Columbia is right as far as it goes. The man CAN'T bust our music.

Referenced letter furnished information that CARL PRESTON OGLESBY, Key Activist, San Francisco 00, had an arrangement with "Life" magazine to write an article on his trip to Cuba, 1/1-15/69, to observe the Tenth Anniversary of the Cuban Revolution. New York has determined that OGLESBY did meet with "Life" representatives in New York on his way back from Cuba. [redacted] has reported that following OGLESBY'S return to San Francisco, OGLESBY stated to others that he was receiving \$3800 from "Life". On 1/29/69, it was determined that on 1/28/69, [redacted], deposited a check in the amount of \$750.00 payable to CARL OGLESBY and drawn on the account of Time, Inc., in the Chemical Bank and Trust Company, New York. This check was numbered 520915. b6 b7C b7D

The foregoing information is furnished the Bureau and New York and Chicago for information in connection with observations set forth in referenced San Francisco letter.

Re San Francisco letters dated 1/27/69 and 2/7/69.

Enclosed for the Bureau is one copy of "Life" magazine, issue of 2/14/69. This magazine is submitted because it contains, beginning on 62D, an article by CARL OGLESBY. This article being prepared by OGLESBY for "Life" has been discussed in referenced letters. The entire magazine is being sent in accordance with Bureau instructions requiring the complete publication if outside use is made of any article.

As a specific suggestion along the lines of attack discussed in referenced letters, it is believed that the actions of Columbia Records might be brought to the attention of officials of the Columbia Broadcasting System (CBS) through having a stockholder in CBS direct a letter to CBS asking that an explanation be made at the annual meeting of stockholders concerning the reasons for its subsidiary, Columbia Records, actively supporting underground media newspapers and New Left propaganda programs. Such a letter might be sent either by an Agent who is a stockholder or by a stockholder who could be approached to do this for the Bureau. Some companies accept questions concerning company operations in person at stockholder's meetings but generally the companies desire that questions be submitted in advance. Questions and answers are frequently printed and distributed to stockholders and are often commented on again in financial and other publications if newsworthy or unusual.

Re: CARL PRESTON OGLESBY, JR.

It is noted that by its letter to the Bureau dated 1/22/69, WFO reported that the passport file on OGLESBY contained two requests from "Life" magazine that OGLESBY'S passport be validated for travel to Cuba to observe the Tenth Anniversary of the Cuban Revolution. Such validation was denied by the State Department.

Nevertheless, OGLESBY did make the trip to Cuba. This can be substantiated by his own article appearing in "Life" magazine and appears susceptible of additional proof through interviews which could be conducted with representatives of "Life" who have been previously contacted by pretext in New York. It is further noted that "The Militant" in its issue dated 1/24/69 carried an article by PAUL MC KNIGHT datelined Havana, Cuba, which stated that CARL OGLESBY was in Havana, Cuba, at the time this article was written.

The Bureau is requested to advise whether or not it is possible for the State Department or other department of the Government to take any action against OGLESBY for his unauthorized trip to Cuba between 12/26/68 and 1/15/69.
